

In memoriam: Žarko Živanović (1935 - 1993)

Milan V. Jovanović and Veselin Jungić

Ten years ago Professor Žarko Živanović passed away in Banja Luka. He was born on August 22, 1935 near Bijeljina. He studied mathematics and physics at the University of Sarajevo, where he eventually gained his B.A. He earned his master's degree in 1974 from the University of Zagreb under Professor Sibe Mardešić direction, and the PhD the next year from the University of Belgrade under Đuro Kurepa. For many years Professor Živanović taught at the Faculty of Electrical Engineering in Banja Luka. He was a brilliant lecturer, respected and very popular with his colleagues and students. Professor Živanović's research interests were in geometry, topology and mathematical education. Some of those papers were cited in [1], [2] and [3]. Žarko Živanović died on October 31, 1993.
