

**OPEN MATHEMATICAL EDUCATION NOTES**

**ISSN 1840-4383**

ANNOUNCING A NEW JOURNAL AIMS  
AND SCOPE AND CALL FOR PAPERS

The Scientific Society of Mathematicians of Banja Luka established *Open Mathematical Education Notes*—an electronic journal—in order to advance mathematics education research activities by the International Mathematical Virtual Institute (<http://www.imvibl.org/>). The main goal of the *Notes* is to foster interaction among mathematicians and mathematics educators in the Balkans, elsewhere in Europe, and worldwide through the publication of high quality articles emphasizing mathematics education as a field of disciplined inquiry. The journal seeks to provide an online forum for professionals interested in reflecting on the wide range of experiences in the teaching of mathematics at all grade levels, from elementary to graduate. Contributions are welcomed from authors with teaching ideas that advance knowledge and practice in the field of mathematics education.

Of a special interest to the *Notes* are papers that reveal hidden connections between traditional concepts of mathematics curricula and big ideas of classic and modern mathematics. The journal is interested in publishing papers that illustrate how the presence of big ideas within curricular topics can be communicated to the learners of mathematics through grade appropriate strategies and can stimulate one's curiosity and creative thought. Papers submitted to the journal are expected to have an applied flavor in the sense that they demonstrate how those connections can inform, facilitate and, thereby, improve the practice of teaching mathematics.

Manuscripts submitted for publication must be original, not previously published, and not being considered for publication elsewhere. All submitted manuscripts will be peer-reviewed. It is a condition of publication that authors assign copyright of their work to the International Mathematical Virtual Institute. Manuscripts (written in English, double spaced, with abstract and keywords) should be submitted in two copies one with and another without the authors' full name, postal address, affiliation, and e-mail. Both copies should be sent as email attachments in either PDF or MS Word format to Editor-in-Chief at [abramovs@potsdam.edu](mailto:abramovs@potsdam.edu). Instructions for authors are posted on the journal's web site (<http://www.imvibl.org/>). The review process normally takes 3 to 4 months. There are no page charges in *Open Mathematical Education Notes*.

**EDITORIAL TEAM**

**Editor-in-Chief:** Sergei Abramovich, State University of New York at Potsdam, USA

**Executive Editor:** Daniel A. Romano, General Manager of the International Mathematical Virtual Institute, Bosnia and Herzegovina

**Associate Editors:**

Andreas Arvanitoyeorgos, University of Patras, Greece

Sinisa Crvenkovic, University of Novi Sad, Novi Sad, Serbia

Silvia Dias Alcantara Machado, Pontifical Catholic University of São Paulo, Brazil

Biljana Popovic, University of Nis, Serbia  
Ildar Safuanov, Moscow City Pedagogical University, Russia

**Editorial Advisory Board:**

Jerry P. Becker, Southern Illinois University, USA  
Toshiakira Fujii, Tokyo Gakugei University, Japan  
Gunnar Gjone, University of Oslo, Norway  
Larry L. Hatfield, University of Wyoming, USA  
Oleg A. Ivanov, St. Petersburg State University, Russia  
Gennady A. Leonov, St. Petersburg State University, Russia  
Steven J. Sugden, Bond University, Australia  
Patrick W. Thompson, Arizona State University, USA
